The Project

A research project was conducted about challenges and successes of adaptations of ESL programs from face-to-face settings to online delivery.

The Workshop

This half-day workshop offers insights on research findings and guides participants through a series of adaptation and design tools for online delivery of ESL programs. Participants will receive a copy of the tools and the summary report from the research. The workshop is designed to be a hands-on experience and sharing opportunity.

About the Presenter

Valeria is a teacher, instructional designer and language consultant. She holds a Master in Secondary Education, A BEd and a BA in foreign languages. She is completing her MACT at the University of Alberta. She works at NorQuest College.
