Let's Talk About Digital Literacy Skills

Please join us on **August 19th at 4 PM (MST)** to talk about digital literacy skills for beginning learners.

- What can we realistically expect?
- What does ESL for ALL suggest as “Emerging”, “Building” and “Expanding” approaches and supports?
- How do we support our students in an online and/or hybrid context?

Jeremy Wilson will facilitate this discussion. He will start off with a short presentation followed by small group breakout sessions and whole group reporting back.
